Holistic Energy
Services in Buildings

SECAP
DECISION-MAKING
SUPPORT

OBJECTIVES

- To assist cities to improve their decision-making processes and local actions related to tackling climate change
- To offer benchmarking possibilities, simulating policy scenarios, providing policy KPIs and metrics and other potential indicators
- To transform the data from governmental climate action annual reports into a basis for the planning, implementation, impact assessment and monitoring of cities' SECAPs

ANALYTICS SERVICES

- SECAPs decision-making support

TARGET AUDIENCE

- Urban planning professionals
- City council members
- Local authorities & policy-makers
- Researchers

BENEFITS

We provide valuable insights for policy-makers and local authorities and support them with decision making when planning and designing action plans to tackle climate change.

With access to information about best practices in other European municipalities at their fingertips, city representatives and urban planning professionals can work smartly and efficiently - allowing them to avoid lengthy groundwork, including desk research and knowledge exchange with peers.
